Capital Rubber & Gasket, Inc. has been a staple of the industrial marketplace in the Sacramento region for decades. We are proud of the history of our company, the roots of which date back to the 1940s. In June of 1989, we opened our Stockton, California branch. More recently, we have joined forces with Pacific Waterjet & Supply – Sacramento's premier waterjet fabrication facility. In 2017, we doubled the size of our Stockton location and gave it a complete makeover – be sure to stop in and check it out if you are in the area! Our entire sales team is extremely knowledgeable and happy to assist you with all of your industrial needs. The Capital Rubber & Gasket team has over 250 years of combined experience, and we stock an extensive array of industrial products. Contact us for any industrial need! If it isn't in stock we will order it for you, and if it's unusual, we will find it for you!
